ノートン版イギリス文学アンソロジー 第10版

The Norton Anthology of English Literature, 10th ed.

Greenblatt, Stephen (ed.)

(W.W. Norton)

More complete major works. More contemporary writers

The Tenth Edition introduces 6 much-requested contemporary writers, all global in reach - including Chimamanda Ngozi Adichie, Kazuo Ishiguro, and Hilary Mantel. There are also 5 NEW complete longer works, among them Shakespeare's *Othello* and Swift's *Gulliver's Travels*. In response to instructors' requests, the editorial team has also added dozens of other NEW selections throughout the book.

25 NEW video modules take students behind the scenes

Designed to enhance classroom presentation, the 25 NEW video modules were conceived of and are narrated by the anthology editors themselves. The modules, available via the NAEL Archive give students a fascinating window into the literary past and present, whether through a look at rarely seen books and manuscripts; a guided tour of the settings where authors brought literary characters into being; interviews with living authors; or a teacher-to-teacher tutorial on conveying a literary form or tradition.

7 NEW lecture-length contextual clusters emphasize key themes

Designed to be teachable in a class period or two, these thematic groupings of short texts focus on cultural issues and literary forms and movements. The Tenth Edition strengthens this popular feature with 7 NEW clusters, including "Talking Animals" and "Print Culture and the Rise of the Novel."

The NAEL Archive - home to dynamic and easy-to-access free resources

Bringing the texts and contexts of English literary history to life in the classroom is the goal of every instructor. To help achieve that goal more easily and efficiently, the Tenth Edition offers the NEWLY reconceived NAEL Archive, a comprehensive suite of rich and imaginative materials, including supplemental readings, videos, images, and more.

The apparatus you trust - extensively rethought for today's students

For over 50 years, the Norton Anthologies have set the standard for editorial help that is right for undergraduates. In the Tenth Edition, the editors have refreshed the apparatus to reflect both NEW scholarship and changing classroom interests. Introductions and headnotes have been revised; hundreds of annotations and glosses fine-tuned; and bibliographies carefully updated - all with the goal of helping students better understand the text, without telling them what to think.

The Norton Anthology of Theory and Criticism. 3rd ed

Leitch, Vincent B. et al. (ed.)

(W.W. Norton)

2018 : 06 Hardback 9780393602951 US\$98.75

The Third Edition offers 191 pieces by 157 authors - from classical antiquity to today. A 30-page "Introduction to Theory and Criticism" provides a brisk and informative overview of major schools, movements, and thinkers. No other anthology comes close to offering the range and depth of selections found in the Norton edition, and no other resource provides as authoritative an introduction to the history and present state of theory.

Selections from 1900 to the present (130 in total) were chosen to best reflect current thinking about the most influential theoretical texts and thinkers of that period. Most of the anthology's 48 NEW pieces by 28 NEW authors come from this crucial period. Pieces such as Alondra Nelson's "Afrofuturism: Past-Future Visions" and Ian Bogost's "The Rhetoric of Video Games" represent recent currents in contemporary theory, and NEW selections by Derrida, Foucault, Fanon, Morrison, and others emphasize themes and topics that are important in today's classroom.

Tyrant: Shakespeare on Politics

Greenblatt, Stephen

(W.W. Norton)

2018 : 05 208 p. Hardback 9780393635751 US\$21.95

As an aging, tenacious Elizabeth I clung to power, a talented playwright probed the social causes, the psychological roots, and the twisted consequences of tyranny. In exploring the psyche (and psychoses) of the likes of Richard III, Macbeth, Lear, Coriolanus, and the societies they rule over, Stephen Greenblatt illuminates the ways in which William Shakespeare delved into the lust for absolute power and the catastrophic consequences of its execution.

Beyond Native-Speakerism: Current Explorations and Future Visions

Houghton, Stephanie et al.

Routledge Studies in Language and Intercultural Communication (Routledge)

2018 : 05 192 p. Hardback 9781138186798 £115.00

By identifying how the construct of Japanese native-speaker mirrors that of the 'native-speaker' of English, the volume presents a revealing insight into language teaching in Japan. Further, taking a problem-solving approach, this volume explores possible grounds on which the language teachers could be employed if native-speakerism is rejected according to experts in the fields of intercultural communicative competence, English as a Lingua Franca and World Englishes, all of which aim to replace the 'native-speaker' model with something new.

The Politics of Painting: Fascism and Japanese Art during the Second World War

Ikeda, Asato

(Univ. of Hawaii Pr.)

2018 : 05 192 p. 33 colour, 12 b&w illus. Hardback 9780824872120 US\$60.00

This book examines a set of paintings produced in Japan during the 1930s and early 1940s that have received little scholarly attention. Asato Ikeda views the work of four prominent artists of the time - Yokoyama Taikan, Yasuda Yukihiko, Uemura Shōen, and Fujita Tsuguharu - through the lens of fascism, showing how their seemingly straightforward paintings of Mount Fuji, samurai, beautiful women, and the countryside supported the war by reinforcing a state ideology that justified violence in the name of the country's cultural authenticity. She highlights the politics of "apolitical" art and challenges the postwar labeling of battle paintings - those depicting scenes of war and combat - as uniquely problematic.

In marked contrast to his contemporaries in the Vienna Secession, who designed their spaces down to the smallest detail, Loos presented himself as a "professor of interior design," perfectly willing to adapt to the habits and tastes of his clients, inviting them to embrace their own tastelessness rather than defer to the discernment of an "aesthete" architect. Together with the future occupant, he designed welcoming interiors whose warmth came from the effective use of quality materials and the creation of a flowing continuity articulated by the furnishings.

Holmes, Christopher

RIPE Series in Global Political Economy (Routledge)

2018 : 05 208 p. Hardback 9781138226708  115.00

The rise of populism across Europe and the US - first in the wake of the 2008 global financial crisis and then in the shape of Donald Trump's presidential campaign and the Brexit vote in 2016 - are indicative of a seismic shift in the terrain of economic ideas in public discourse. How might we make sense of this ideological breakdown and what might we hope for next? This book turns to the work of Karl Polanyi for answers, developing the expansive, historicised approach to political economy that Polanyi pioneered.

Suzuki, Yasushi & Miah, Mohammad Dulal

Islamic Business and Finance Series (Routledge)

2018 : 03 248 p. Hardback 9781138095403 £105.00

One of the critical challenges is how Islamic financial institutions can be motivated to participate in the 'equity-like' profit-and-loss sharing (PLS) contracts. It is observed that Islamic banks are reluctant to participate in the pure PLS scheme which is manifested by the rising concentration of investment on murabaha or mark-up financing. This phenomenon has been the hotbed of academic criticism on the contemporary practice of Islamic banking. This book explains the 'murabaha syndrome' in light of the incentive provided by the current institutional framework and what are the changes required in the governance structure to mend this anomaly.

Ito, Takatoshi et al.

(Edward Elgar)

2018 : 05 224 p. Hardback 9781785360121 £75.00

This book demonstrates how exporters' decisions regarding choice of invoice currency can be influenced by many factors including firm size, product competitiveness, intra/inter-firm trades, and the geography of export destination. The aim is to enhance our understanding of exporters' behavior in terms of managing currency risk. It contains detailed research and insightful data focusing on Japanese exporters and shows how they face an important trade-off in choosing the invoice currency. If exports are invoiced in yen, then exchange rate fluctuations will pass through to retail prices ultimately affecting sales volumes. However, if they choose to invoice in the importer's currency, then sales volumes are largely unchanged.

Corbett, Rebecca

(Univ. of Hawaii Pr.)

2018 : 03 208 p. Hardback 9780824872076 US\$68.00

The overwhelming majority of tea practitioners in contemporary Japan are women, but there has been little discussion on their historical role in tea culture (chanoyu). In *Cultivating Femininity*, Rebecca Corbett writes women back into this history and shows how tea practice for women was understood, articulated, and promoted in the Edo (1603-1868) and Meiji (1868-1912) periods. Viewing chanoyu from the lens of feminist and gender theory, she sheds new light on tea's undeniable influence on the formation of modern understandings of femininity in Japan.

Political Corruption and Scandals in Japan makes sense of the scandals that have plagued Japanese politics for more than half a century and attempts to show how reforms have evolved to counter the problems. What causes political corruption to become more or less serious over time? they ask. The authors examine major political corruption scandals beginning with the early postwar period until the present day as one way to make sense of how the nature of corruption changes over time.

Direct Democracy: A Double-Edged Sword

Reilly, Shauna

(Lynne Rienner)

2018 : 02 200 p. Hardback 9781626377141 US\$72.00

Direct democracy typically is lauded for putting power in the hands of the people. But is it really as democratic as it seems? To what extent, and in what circumstances, is it less about citizen power and more about external influences seeking to manipulate outcomes? Addressing these issues, Shauna Reilly draws on and compares case studies of referendums, recall elections, and initiatives around the world to investigate the complex realities of direct democracy in action.

(Lynne Rienner)

2018 : 09 235 p. Hardback 9781626377448 US\$38.50

Though transitional justice has been hailed by many as the best path toward reconciliation and stability in postconflict and democratizing societies, criticisms of the approach also abound, with a significant number of TJ programs labeled failures. What accounts for this difference of opinion? How is success measured? Have the societies that sought to implement a plan for TJ followed the trajectory laid out in the policy design phase? And if not, was success sometimes achieved despite this variation? or perhaps because of it? Toshihiro Abe addresses these questions through an exploration of TJ projects at the local level in Africa, Asia, and Europe.

How to Rig an Election

Cheeseman, Nic & Klaas, Brian

(Yale U.P.)

2018 : 04 328 p. Hardback 9780300204438 US\$26.00

Based on their firsthand experiences as election watchers and their hundreds of interviews with presidents, prime ministers, diplomats, election officials, and conspirators, Cheeseman and Klaas document instances of election rigging from Argentina to Zimbabwe, including notable examples from Brazil, India, Nigeria, Russia, and the United States - touching on the 2016 election. This eye-opening study offers a sobering overview of corrupted professional politics, while providing fertile intellectual ground for the development of new solutions for protecting democracy from authoritarian subversion.

African Actors in International Security: Shaping Contemporary Norms

Coleman, Katharina P. & Tiekou, Thomas K. (ed.)

(Lynne Rienner)

2018 : 05 310 p. Hardback 9781626376960 US\$79.95

What impact have African actors had on perceptions of and responses to current international security challenges? Are there international peace and security norms with African roots? How can actors that lack the power and financial resources of Western states help to shape prevailing conceptions of appropriate behavior in international politics? Addressing these questions, the authors of *African Actors in International Security* identify and explore the diverse pathways by which African governments, IGOs, NGOs, and individuals can and do influence the normative structure of contemporary international relations.

China, Japan, and Senkaku Islands: Conflict in the East China Sea Amid an American Shadow

Chansoria, Monika

(Routledge)

2018 : 01 268 p. Hardback 9781138541290 £110.00

Tracing the genesis of the Senkaku Islands in the memoirs of history, and its potential future, in the backdrop of the East China Sea's brewing dispute, this book chronicles the journey of Sino-Japanese relations in the explicit context of the Senkaku Islands. The evolving power transition dynamics in East Asia render Washington the lynchpin of Tokyo's diplomatic and security strategy, and vice versa.

Research Handbooks in Financial Law (Edward Elgar)

2018 : 05 528 p. Hardback 9781784719210 £150.00

This comprehensive and insightful Handbook, takes a wider angle on central banks and central banking, focusing on the institutions of central banking. By 'institutions', Peter Conti-Brown and Rosa Lastra refer to the laws, traditions, norms, and rules used to structure central bank organisations. The Research Handbook on Central Banking's institutional approach is one of the most interdisciplinary efforts to consider its topic, and includes chapters from leading and rising central bankers, economists, lawyers, legal scholars, political scientists, historians, and others.

The Routledge Handbook of Human Rights and Disasters provides the first comprehensive review of the role played by international human rights law in the prevention and management of natural and technological disasters. Each chapter is written by a leading expert and offers a state-of-the-art overview of a significant topic within the field. In addition to focussing on the role of human rights obligations in disaster preparedness and response, the volume offers a broader perspective by examining how human rights law interacts with other legal regimes and by addressing the challenges facing humanitarian organizations.

Encyclopedia of Christianity in the Global South traces both the historical evolution and contemporary themes in Christianity in more than 150 countries and regions. The volumes include maps, images, and a detailed timeline of key events. The phrases "global south" and "world Christianity" are inadequate to convey the complexity of the countries and regions involved - this encyclopedia, with its more than 500 entries, aims to offer rich perspectives on the varieties of Christianity where it is growing, how the spread of Christianity shapes the faith in various regions, and how the faith is changing worldwide.

Why, for instance, did industrialization begin in England and not in China? Was there early capitalist development outside of the West? Was the Enlightenment exclusively a European event? Led by editors Sebastian Conrad and Jürgen Osterhammel, a distinguished group of historians tackles these issues, along with the roles of nomads and enslaved people in fostering global integration, the development of a bourgeoisie outside Euro-America, Hinduism's transformation from local practices into a universal system, the invention of pan-Islamic identity, and the causes and effects of the revolution in time regimes. The world appeared to be undergoing such a radical renewal that the impression of an epochal watershed was widespread.

The historiography of the Cold War has long been dominated by American motivations and concerns, with Southeast Asian perspectives largely confined to the Indochina wars and Indonesia under Sukarno. *Southeast Asia's Cold War* corrects this situation by examining the international politics of the region from within rather than without. It provides an up-to-date, coherent narrative of the Cold War as it played out in Southeast Asia against a backdrop of superpower rivalry.

Akuto and Rural Conflict in Medieval Japan

Oxenboell, Morten

(Univ. of Hawaii Pr.)

2018 : 05 240 p. Hardback 9780824872649 US\$64.00

This volume offers the first in-depth analysis in English of an understudied phenomenon in medieval Japanese history: the so-called akuto (literally, "evil bands"). Employing chronicles, laws, and legal documents from the thirteenth and fourteenth centuries, as well as recent Japanese scholarship, Morten Oxenboell examines the significance of akuto in legal proceedings to provide a nuanced understanding of how rural communities organized for and engaged in violent conflicts. He deconstructs the image of akuto as instigators of violence by underlining the significance of the term as a rhetorical device used by litigants to voice their grievances in Kamakura legal proceedings.

Organised into five parts, the book begins by scrutinizing the conflicting attitudes towards Japanese post-war society and identifies the various legacies of the war. It also provides an examination of the aftermath of Hiroshima and Nagasaki, before studying contemporary civil society and analysing the way memories of the war have changed with time. Each of the chapters discusses the Japanese government's inability to achieve reconciliation with its neighbours, despite the passage of over 70 years, and the denial of the atrocities committed by the Imperial Army.

In *Resurrecting Nagasaki*, Chad R. Diehl examines the reconstruction of Nagasaki City after the atomic bombing of August 9, 1945. Diehl illuminates the genesis of narratives surrounding the bombing by following the people and groups who contributed to the city's rise from the ashes and shaped its postwar image in Japan and the world. Municipal officials, survivor-activist groups, the Catholic community, and American occupation officials interpreted the destruction and envisioned the reconstruction of the city from different and sometimes disparate perspectives.
