Big Fiction: How Conglomeration Changed the Publishing Industry and American Literature

Sinykin, Dan

Literature Now (Columbia U.P.)

2023 : 10 320 p. Paperback 9780231192958 US\$30.00

In the late 1950s, Random House editor Jason Epstein would talk jazz with Ralph Ellison or chat with Andy Warhol while pouring drinks in his office. By the 1970s, editors were poring over profit-and-loss statements. The electronics company RCA bought Random House in 1965, and then other large corporations purchased other formerly independent publishers. As multinational conglomerates consolidated the industry, the business of literature---and literature itself---transformed.

エドガー・ライス・バローズ、カズオ・イシグロ、ウィラ・キャザー、マギー・ネルソンなど幅広い作家に言及

Twenty-first-century fiction and theory have taken a decidedly weird turn. They both show a marked interest in the nonhuman and in the preternatural moods that the nonhuman often evokes. Writers of fiction and criticism are avidly experimenting with strange, even alien perspectives and protagonists. Kate Marshall's *Novels by Aliens* explores this development broadly while focusing on problems of genre fiction. She identifies three key generic hybrids that harness a longing for the nonhuman: the old weird, an alternative tradition within naturalism and modernism for the twenty-first century's cowboys and aliens; cosmic realism, the reach for words legible only from space in otherwise terrestrial narratives; and pseudoscience fiction, which imagines speculative futures beyond human life on earth.

In partnership, the Committee explores the atmospheres emanating from texts by Nella Larsen, W. G. Sebald, Heike Geissler, Hiroko Oyamada, Mieko Kanai, Bhanu Kapil, Franz Kafka, Renee Gladman, and others, attending to the chafing of political irritation, the hunger of precarious and temporary work, and the lonely delights of urban and suburban walks.

The Sisterhood: How a Network of Black Women Writers Changed American Culture

Thorsson, Courtney

(Columbia U.P.)

2023 : 11 296 p. Hardback 9780231204729 US\$28.95

One Sunday afternoon in February 1977, Toni Morrison, Alice Walker, Ntozake Shange, and several other Black women writers met at June Jordan's Brooklyn apartment to eat gumbo, drink champagne, and talk about their work. Calling themselves "The Sisterhood," the group - which also came to include Audre Lorde, Paule Marshall, Margo Jefferson, and others - would get together once a month over the next two years, creating a vital space for Black women to discuss literature and liberation. *The Sisterhood* tells the story of how this remarkable community transformed American writing and cultural institutions. Drawing on original interviews with Sisterhood members as well as correspondence, meeting minutes, and close readings of their works, Courtney Thorsson explores the group's everyday collaboration and profound legacy.

Afterlives of Letters: The Transnational Origins of Modern Literature in China, Japan, and Korea

Hashimoto, Satoru

Studies of the Weatherhead East Asian Institute, Columbia University (Columbia U.P.)

2023 : 09 408 p. Hardback 9780231211529 US\$140.00 Paperback 9780231211536 US\$35.00

Satoru Hashimoto offers a novel way of understanding the origins of modern literature in a transregional context, drawing on Chinese-, Japanese-, and Korean-language texts in both classical and vernacular forms. He argues that modern literature came into being in East Asia through writerly attempts at reconstructing the present's historical relationship to the past across the cultural transformations caused by modernization. Hashimoto examines writers' anachronistic engagement with past cultures deemed obsolete or antithetical to new systems of values, showing that this transnational process was integral to the emergence of modern literature.

Through dealing with female spaces, maternal roles, gendered bodies, or resistant speech acts the book uncovers the overarching theme of desire - desire for language, touch, and recognition. Focusing on authors who have previously been underrepresented in English-language scholarship, the book highlights the diverse nature and the important synergies of writing by women in the last few decades.

Writing Violence: The Politics of Form in Early Modern Japanese Literature

Atherton, David C.

(Columbia U.P.)

2023 : 10 312 p. Hardback 9780231211543 US\$140.00 Paperback 9780231211550 US\$35.00

David C. Atherton offers a new approach to understanding the relationship between the challenging formal features of early modern popular literature and the world beyond its pages. Focusing on depictions of violence—one of the most fraught topics for a peaceful polity ruled over by warriors - he connects concepts of form and formalization across the aesthetic and social spheres. Atherton shows how the formal features of early modern literature had the potential to alter the perception of time and space, make social and economic forces visible, defamiliarize conventions, give voice to the socially peripheral, and reshape the contours of community. Through careful readings of works by the major writers Asai Ryōi, Ihara Saikaku, Chikamatsu Monzaemon, Ueda Akinari, and Santō Kyōden, *Writing Violence* reveals the essential role of literary form in constructing the world - and in seeing it anew.

Individual chapters discuss aspects of these perspectival shifts, tracing the reshaping of Japanese identity after the triple disaster. The cultural productions explored offer a glimpse into the public imaginary and demonstrate how disasters can fundamentally redefine our individual and shared conception of both history and the present moment.

It also critically examines the concepts that are typically deployed to defend linguistic diversity, including human rights, inclusiveness, and equality. Contributors take up topics such as mapping language communities in New York City or how Indigenous innovation challenges notions of linguistic purity. They demonstrate the need to reckon with linguistic diversity in order to achieve a sustainable global economic system and show how the concept of digital vitality can push language justice in new directions.

Rosenbaum, Roman & Claremont, Yasuko (ed.)

(Routledge)

2023 : 05 268 p. Hardback 9781032340678 £120.00

This book explores the contemporary legacy of Hiroshima and Nagasaki following the passage of three quarters of a century, and the role of art and activism in maintaining a critical perspective on the dangers of the nuclear age. It closely interrogates the political and cultural shifts that have accompanied the transition to a nuclearised world. Beginning with the contemporary socio-political and cultural interpretations of the impact and legacy of the destruction of Hiroshima and Nagasaki, the chapters examine the challenges posed by committed opponents in the cultural and activist fields to the ongoing development of nuclear weapons and the expanding industrial uses of nuclear power. It explores how the aphorism that "all art is political" is borne out in the close relation between art and activism.

The economics of healthcare are messy. For most consumers, there's little control over costs or services. Sometimes doctors are paid a lot; other times they aren't paid at all. Insurance and drug companies are evil, except when they're not. If economics is the study of market efficiency, how do we make sense of this? *Better Health Economics* is a warts-and-all introduction to a field that is more exceptions than rules. Economists Tal Gross and Matthew J. Notowidigdo offer readers an accessible primer on the field's essential concepts, a review of the latest research, and a framework for thinking about this increasingly imperfect market.

As open societies struggle to match the economic productivity of authoritarian-capitalist economies, the promises of a meritocracy fade; Yadav channels Hayek to articulate how liberalism's moral backbone is its greatest defense against repressive social structures.

Lainey Newman and Theda Skocpol provide timely insight into the relationship between the decline of unions and the shift of working-class voters away from Democrats. Drawing on interviews, union newsletters, and ethnographic analysis, they pinpoint the significance of eroding local community ties and identities. Using western Pennsylvania as a case study, Newman and Skocpol argue that union members' loyalty to Democratic candidates was as much a product of the group identity that unions fostered as it was a response to the Democratic Party's economic policies. As the social world around organized labor dissipated, conservative institutions like gun clubs, megachurches, and other Republican-leaning groups took its place.

He identifies two types of racial discomfort: social alienation, the isolation stemming from the cultural exclusion Black professionals experience in White spaces, and stigma anxiety, the trepidation they feel over the risk of discriminatory treatment.

Yellow Peril and anti-Asian racism is also found in Africa, Australia, and in Asian nations as well. Wherever Asian immigrants and refugees found themselves, anti-Asian sentiments quickly followed. Eviane Leidig offers an in-depth look into the world of far-right women influencers, exploring the digital lives they cultivate as they seek new recruits for white nationalism. Going beyond stereotypes of the typical male white supremacist, she uncovers how young, attractive women are playing key roles as propagandists, organizers, fundraisers, and entrepreneurs. Leidig argues that far-right women are marketing themselves as authentic and accessible in order to reach new followers and spread a hateful ideology. This insidious - and highly gendered - strategy takes advantage of the structure of social media platforms, where far-right women influencers' content is shared with and promoted to mainstream audiences. Providing much-needed expertise on gender and the far right, this timely and accessible book also details online and offline approaches to countering extremism.

Eschewing the religious and values-based arguments that have long dominated this conversation, Kearney shows how the greatest impacts of marriage are, in fact, economic: when two adults marry, their economic and household lives improve, offering a host of benefits not only for the married adults but for their children. The short-termism of electoral politics and corporate decision making, the funding structure of nonprofits, and the institutional dynamics shaping academic research have all contributed to a failure to build resilience.

Alix Olson and Alex Zamalin offer a clear-eyed critical account of how neoliberalism has redefined resistance to thwart social movements and consolidate power. Elites have domesticated and coopted some once-radical concepts and practices into "restorative resistance" that bolsters support for an unjust social order while marginalizing, racializing, and criminalizing many others. Olson and Zamalin argue that true resistance to racial neoliberalism must instead be deeply antirestorative: collective, horizontal, counterhegemonic, radically democratic insurrectionary movements that cannot be redirected into shoring up the existing order. This "unruly world-building" - exemplified by Occupy Wall Street, the Movement for Black Lives, Indigenous activism at Standing Rock, and more - pushes us to live, think, and dream beyond profit maximization, democratic civility, and individual freedom.

This pathbreaking book pinpoints forces behind the rise of the "rural voter" - a new political identity that combines a deeply felt sense of place with an increasingly nationalized set of concerns. Combining a historical perspective with the largest-ever national survey of rural voters, Nicholas F. Jacobs and Daniel M. Shea uncover how this overwhelmingly crucial voting bloc emerged and how it has roiled American politics. They show how perceptions of economic and social change, racial anxieties, and a traditional way of life under assault have converged into a belief in rural uniqueness and separateness. Rural America believes it rises and falls together, and that the Democratic Party stands in the way.

In this book, Viren Murthy offers an intellectual history of the writings of theorists, intellectuals, and activists - spanning leftist, conservative, and right-wing thinkers - who proposed new ways of thinking about Asia in their own historical and political contexts. Tracing pan-Asianist discourse across the twentieth century, Murthy reveals a stronger tradition of resistance and alternative visions than the contemporary discourse on pan-Asianism would suggest. At the heart of pan-Asianist thinking, Murthy shows, were the notions of a unity of Asian nations, of weak nations becoming powerful, and of the Third World confronting the "advanced world" on equal terms - an idea that grew to include non-Asian countries into the global community of Asian nations.

Writing incisively and authoritatively for readers at all levels, Cohen paints a broad but revealing portrait of East Asia's place in the world. He defines the region's boundaries widely, looking beyond China, Japan, and Korea to include Southeast Asia, and extends the scope of international relations to consider the vital role of cultural and economic exchanges. Cohen examines the system of Chinese domination in the ancient world, the exchanges between East Asia and the Islamic world, Chinese sea voyages to Arabia and East Africa, and the emergence of a European-defined international system. He chronicles the new imperialism of the 1890s, the ascendancy of Japan, the trials of World War II, the drama of the Cold War, and the transformations of East Asian states toward the close of the twentieth century. By showing that East Asia has often been preeminent on the world stage, this book not only recasts the past but also adds crucial historical perspective on international politics today.

The United States-South Korea Alliance: Why It May Fail and Why It Must Not

Snyder, Scott A.

A Council on Foreign Relations Book (Columbia U.P.)

2023 : 11 288 p. Hardback 9780231208680 US\$140.00 Paperback 9780231208697 US\$35.00

Scott A. Snyder provides an authoritative overview of the internal and external pressures on the U.S.-South Korea alliance and explores its future prospects. He argues that nationalist leaders' accession to power could put past successes at risk and endanger the national security objectives of both countries. In the United States, "America first" nationalism favors self-interest over cooperation and portrays allies as burdens or even free riders. "Korea first" sentiments, in both progressive and conservative forms, present the U.S. military presence in South Korea as an obstacle to Korean reconciliation or a shackle on South Korea's freedom of action. Snyder also examines North Korea's attempts to influence South Korean domestic politics and how China's growing strength has affected the dynamics of the alliance. He considers scenarios in which the U.S.-South Korea relationship weakens or crumbles, emphasizing the consequences for the region and the world.

Chaos Reconsidered: The Liberal Order and the Future of International Politics

The shock of Donald Trump's election caused many observers to ask whether the liberal international order - the system of institutions and norms established after World War II - was coming to an end. The victory of Joe Biden, a committed institutionalist, suggested that the liberal order would endure. Even so, important questions remained: Was Trump an aberration? Is Biden struggling in vain against irreparable changes in international politics? What does the future hold for the international order? The essays in *Chaos Reconsidered* answer those questions. Leading scholars assess the domestic and global effects of the Trump and Biden presidencies.

China's Relations with Africa: A New Era of Strategic Engagement

Eisenman, Joshua & Shinn, David H.

(Columbia U.P.)

2023 : 08 504 p. Hardback 9780231210003 US\$140.00 Paperback 9780231210010 US\$35.00

This book examines the full scope of contemporary political and security relations between China and Africa. David H. Shinn and Joshua Eisenman not only explain the specific tactics and methods that Beijing uses to build its strategic relations with African political and military elites but also contextualize and interpret them within China's larger geostrategy. They argue that the priorities of Chinese leaders - including the conflation of threats to the Communist Party with threats to the country, a growing emphasis on relations in the Global South, and a focus on countering U.S. hegemony - have combined to elevate Africa's importance among policy makers in Beijing.

South Korea's Grand Strategy: Making Its Own Destiny

Contemporary Asia in the World (Columbia U.P.)

2023 : 10 320 p. Hardback 9780231203227 US\$140.00 Paperback 9780231203234 US\$35.00

This book examines the key factors and goals that shape South Korea's long-term strategy, with analysis that brings together its diplomatic, military, economic, and soft-power components. Pacheco Pardo shows that South Korea's fundamental aim has been to move beyond its past as a "shrimp among whales" and instead attain autonomy and freedom of action. He explores how South Korean leaders across parties and governments have pursued security, prosperity, and status. Pacheco Pardo tracks South Korea's core relationships with North Korea, the United States, and China, and he details the country's objectives and policies across East Asia, the Asia-Pacific region, and the rest of the world.

The Making of Lawyers' Careers provides an unprecedented account of the last two decades of the legal profession in the US, offering a data-backed look at the structure of the profession and the inequalities that early-career lawyers face across race, gender, and class distinctions. Starting in 2000, the authors collected over 10,000 survey responses from more than 5,000 lawyers, following these lawyers through the first twenty years of their careers. They also interviewed more than two hundred lawyers and drew insights from their individual stories, contextualizing data with theory and close attention to the features of a market-driven legal profession.

The One: Descartes, Plato, Kant

The Seminars of Alain Badiou (Columbia U.P.)

2023 : 07 288 p. Hardback 9780231194129 US\$35.00

Alain Badiou's 1983-1984 lecture series on "the One" is the earliest of his seminars that he has chosen to publish. It focuses on the philosophical concept of oneness in the works of Descartes, Plato, and Kant - a crucial foil for his signature metaphysical concept, the multiple. Badiou declares that there is no "One": there is no fundamental unit of being; being is inherently multiple.

Hospitality, Vol. I

Derrida, Jacques / Brault, Pascale-Anne (ed.)

The Seminars of Jacques Derrida (Univ. of Chicago Pr.)

2023 : 11 320 p. Hardback 9780226828015 ¥8,010

Hospitality reproduces a two-year seminar series delivered by Jacques Derrida at the École des hautes études en sciences sociales in Paris between 1995 and 1997. In these lectures, Derrida asks a series of related questions about responsibility and "the foreigner": How do we welcome or turn away the foreigner? What does the idea of the foreigner reveal about kinship and the state, particularly in relation to friendship, citizenship, migration, asylum, assimilation, and xenophobia? Derrida approaches these questions through readings of several classical texts as well as modern texts by Heidegger, Arendt, Camus, and others. Central to his project is a rigorous distinction between conventional, finite hospitality, with its many conditions, and the aspirational idea of hospitality as something offered unconditionally to the stranger. This volume collects the first year of the seminar.

"What Is Critique?" and "The Culture of the Self"

Foucault, Michel

The Chicago Foucault Project (Univ. of Chicago Pr.)

2024 : 01 240 p. Paperback 9780226383446 ¥6,230

This volume presents the first critical edition of this crucial lecture alongside a previously unpublished lecture about the culture of the self and three public debates with Foucault at the University of California, Berkeley in April 1983. There, for the first time, Foucault establishes a direct connection between his reflections on Enlightenment and his analyses of Greco-Roman antiquity. However, far from suggesting a return to the ancient culture of the self, Foucault invites his audience to build a "new ethics" that bypasses the traditional references to religion, law, and science.

The Culmination: Heidegger, German Idealism, and the Fate of Philosophy

Pippin, Robert B.

(Univ. of Chicago Pr.)

2024 : 01 256 p. Hardback 9780226830001 ¥7,120

Heidegger claimed that Western philosophy ended, failed even, in the German Idealist tradition. In *The Culmination*, Robert B. Pippin explores the ramifications of this charge through a masterful survey of Western philosophy, especially Heidegger's critiques of Hegel and Kant. Pippin argues that Heidegger's basic concern was to determine sources of meaning for human life, particularly those that had been obscured by Western philosophy's attention to reason. *The Culmination* offers a new interpretation of Heidegger, German Idealism, and the fate of Western rationalism.

The Force of Truth: Critique, Genealogy, and Truth-Telling in Michel Foucault

2023 : 09 192 p. Hardback 9780226827438 ¥17,620 Paperback 9780226827452 ¥4,450

Many blame Michel Foucault for our post-truth and conspiracy-laden society. In this provocative work, Daniele Lorenzini argues that such criticism fundamentally misunderstands the philosopher's project. Foucault did not question truth itself but what Lorenzini calls "the force of truth," or how some truth claims are given the power to govern our conduct while others are not. This interest, Lorenzini shows, drove Foucault to articulate a new ethics and politics of truth-telling precisely in order to evade the threat of relativism.

A Precarious Happiness: Adorno and the Sources of Normativity

Gordon, Peter E.

(Univ. of Chicago Pr.)

2024 : 01 320 p. Hardback 9780226828572 ¥7,120

Theodor Adorno is often portrayed as a totalizing negativist, a scowling contrarian who looked upon modern society with despair. Peter E. Gordon thinks we have this wrong: if Adorno is uncompromising in his critique, it is because he sees in modernity an unfulfilled possibility of human flourishing. In a damaged world, Gordon argues, all happiness is likewise damaged, but not wholly absent. Through a comprehensive rereading of Adorno's work, *A Precarious Happiness* recovers Adorno's commitment to traces of happiness - fragments of the good amid the bad. Ultimately, Gordon argues that social criticism, while exposing falsehoods, must also cast a vision for an unrealized better world.

When Death Falls Apart: Making and Unmaking the Necromaterial Traditions of Contemporary Japan

Gould, Hannah

(Univ. of Chicago Pr.)

2023 : 12 208 p. Hardback 9780226828992 ¥17,620 Paperback 9780226829012 ¥5,340

Gould asks: What happens when religious technology becomes obsolete? In noisy carpentry studios, flashy funeral showrooms, the neglected houses of widowers, and the cramped kitchens where women prepare memorial feasts, Gould traces the butsudā alongside the Buddhist lifecycle, exploring how they are made, circulate within religious and funerary economies, come to mediate intimate exchanges between the living and the dead, fall into disuse, and, maybe, are remade. Gould suggests how this form might be reborn for the modern world, from miniature urns inspired by sleek Scandinavian design to new ritual practices that embrace impermanence, such as scattering or the making of "bone buddhas".

For more than fifty years, she kept a diary recording her family's daily life - meals and expenses, visitors and the weather, small-town gossip and news of momentous events.
