The Gothic and Theory: An Edinburgh Companion

Hogle, Jerrold E. & Miles, Robert (ed.)

Edinburgh Companions to the Gothic (Edinburgh U.P.)

2019 : 04 248 p. Hardback 9781474427777 £90.00

This collection provides a thorough representation of the early and ongoing conversation between Gothic and theory - philosophical, aesthetic, psychological and cultural - both in the many modes of Gothic and in many of the realms of theory now current in the modern world. Each essay focuses on a particular kind of theory-Gothic relationship, every one of which has a history and each of which is still being explored in enactments of the Gothic and of theory today.

The Art of the Faerie Queene

Danson Brown, Richard

The Manchester Spenser (Manchester U.P.)

2018 : 12 328 p. Hardback 9780719087325 £80.00

The Art of The Faerie Queene is the first book centrally focused on the forms and poetic techniques employed by Spenser. It offers a sharp new perspective on Spenser by rereading *The Faerie Queene* as poetry which is at once absorbing, demanding and experimental. Instead of the traditional conservative model of Spenser as poet, this book presents the poem as radical, edgy and unconventional, thus proposing new ways of understanding the Elizabethan poetic Renaissance.

Dickens's Clowns: Charles Dickens, Joseph Grimaldi and the Pantomime of Life

Buckmaster, Johnathan

Edinburgh Critical Studies in Victorian Culture (Edinburgh U.P.)

2019 : 04 224 p. Hardback 9781474406956 £75.00

This book reappraises Dickens's Memoirs of Joseph Grimaldi and his imaginative engagement with its principal protagonist. Arguing that the Memoirs should be read as integral to Dickens's wider creative project on the theatricality of everyday existence, Jonathan Buckmaster analyses how Grimaldi's clown stepped into many of Dickens's novels.

William Shakespeare and John Donne: Stages of the Soul in Early Modern English Poetry

Zirker, Angelika

The Manchester Spenser (Manchester U.P.)

2019 : 01 280 p. Hardback 9781526133298 £80.00

This study analyses concepts and representations of the soul in the poetry of William Shakespeare and John Donne. It shows how the soul becomes a linking element between the genres of poetry and drama, and how poetry becomes dramatic whenever the soul is at its focus. This double movement can be observed in Shakespeare's *The Rape of Lucrece* and Donne's *Holy Sonnets*: in these texts, the connection between interiority and performance, psychology and religious self-care can be found, which is central to the understanding of early modern drama and its characteristic development of the soliloquy.

The book describes the structure of the Keynes-Leontief Model (KLM) of Japan and discusses how the Japanese economy can overcome the long-term economic deflation that has taken place since the mid-1990s. The large-scale econometric model and its analysis have been important for planning several policy measures and examining the economic structure of a country. However, it seems that the development and maintenance of the KLM would be very costly. The book discusses how the KLM is developed and employed for the policy analyses.

Making accurate predictions about the economy has always been difficult, as F. A. Hayek noted when accepting his Nobel Prize in economics, but today forecasters have to contend with increasing complexity and unpredictable feedback loops. In this accessible and engaging guide, David Hendry, Michael Clements, and Jennifer Castle provide a concise and highly intuitive overview of the process and problems of forecasting. They explain forecasting concepts including how to evaluate forecasts, how to respond to forecast failures, and the challenges of forecasting accurately in a rapidly changing world.

2019 : 04 200 p. Hardback 9781845416737 £99.95 Paperback 9781845416720 £29.95

This book deconstructs the 'sharing' marketing narratives surrounding Airbnb and similar platforms. It provides a conceptual analysis of the 'sharing economy' and accommodation sector and furthers the ongoing discussion surrounding Airbnb and the social sustainability of city tourism. The volume analyses the touristification of neighbourhoods in the context of broader economic and ideological shifts, thus bridging the gap between academic and social debate. It presents four different city scenarios of potential future developments and evaluates the effects of different regulatory responses, giving readers an understanding of the forces and factors at work and envisioning the ultimate consequences of current developments.

Bourdieu and Social Space: Mobilities, Trajectories, Emplacements

Reed-Danahay, Deborah

Worlds in Motion, 6 (Berghahn)

2019 : 10 190 p. Hardback 9781789203530 US\$110.00

French sociologist and anthropologist Pierre Bourdieu's relevance for studies of spatiality and mobility has received less attention than other aspects of his work. Here, Deborah Reed-Danahay argues that the concept of social space, central to Bourdieu's ideas, addresses the structured inequalities that prevail in spatial choices and practices. She provides an ethnographically informed interpretation of social space that demonstrates its potential for new directions in studies of mobility, immobility, and emplacement. This book traces the links between habitus and social space across the span of Bourdieu's writings, and places his work in dialogue with historical and contemporary approaches to mobility.

A consistent problem that confronts disaster reduction is the disjunction between academic and expert knowledge and policies and practices of agencies mandated to deal with the concern. Although a great deal of knowledge has been acquired regarding many aspects of the gap, such as driving factors, risk construction, complexity of resettlement, and importance of peoples' culture, very little has gotten into protocol and procedure. *Disaster Upon Disaster* illuminates the numerous disjunctions between the suppositions, realities, agendas, and executions in the field, goes on to detail contingencies, predicaments, old and new plights, and finally advances solutions and the matter of outcomes.

著者による新序文

The end of the Cold War was a "big bang" reminiscent of earlier moments after major wars, such as the end of the Napoleonic Wars in 1815 and the end of the world wars in 1919 and 1945. But what do states that win wars do with their newfound power, and how do they use it to build order? In *After Victory*, John Ikenberry examines postwar settlements in modern history, arguing that powerful countries do seek to build stable and cooperative relations, but the type of order that emerges hinges on their ability to make commitments and restrain power. He explains that only with the spread of democracy in the twentieth century and the innovative use of international institutions - both linked to the emergence of the United States as a world power - has order been created that goes beyond balance of power politics to exhibit "constitutional" characteristics.

In the Ruins of Neoliberalism casts the hard-right turn as animated by socioeconomically aggrieved white working- and middle-class populations but contoured by neoliberalism's multipronged assault on democratic values. From its inception, neoliberalism flirted with authoritarian liberalism as it warred against robust democracy. It repelled social-justice claims through appeals to market freedom and morality. It sought to de-democratize the state, economy, and society and re-secure the patriarchal family.
