**Bad English: Literature, Multilingualism, and the Politics of Language in Contemporary Britain**

Gilmour, Rachael

(Manchester U.P.)

2022 : 06 296 p. Paperback 9781526163820 £20.00

*Bad English* investigates the impact of increasing language diversity, precipitated by migration, globalisation, and new forms of communication, in transforming contemporary literature in Britain. Considering writers whose work engages experimentally, playfully, and ambivalently with English's power, while exploring what it means to move between forms of language, it makes the case for literature as the pre-eminent medium to probe the terms of linguistic belonging, and for a diverse and growing field of writing in Britain defined by its inside/outside relationship to English in its institutionalised forms.

Based on a close reading of Japanese director Yasujiro Ozu's extant films, this book provides insights into the ways the director created narrative structures and used symbolism to construct meaning in his films. Against critics' insistence that Ozu was indifferent to plot and unlikely to use symbols, Geist demonstrates otherwise, revealing the director's subtle iconographic paradigms. Her incisive understanding of the historical and cultural context in which the films were conceived amplifies her analysis of the films' structure and meaning.

### Like a Little Dog: Andy Warhol's Queer Ecologies

Grudin, Anthony E.

(U. of California Pr.)

2022 : 10 232 p. 50 color illus. Hardback 9780520383579 US\$45.00

Nonhuman life impassioned every area of Warhol's practice, beginning with his juvenilia and an unusually close creative collaboration with his mother, Julia Warhola. The pair codeveloped a transgressive animality that permeated Warhol's prolific career, from his commercial illustration and erotica to his writing and, of course, his painting, installation, photography, and film. Grudin shows that Warhol disputed the traditional claim that culture and creativity distinguish the human from the merely animal and vegetal, instead exploring the possibility of art as an earthy and organic force, imbued with appetite and desire at every node. Ultimately, by arguing that nonhuman life is central to Warhol's work in ways that mirror and anticipate influential texts by Toni Morrison and Ocean Vuong, *Like a Little Dog* opens an entirely unexplored field in Warhol scholarship.

This book brings together a fine collection of chapters that span contributions from forgotten classics to the most recent new thinking about critical issues such as growth, wealth, its creation and its distribution among members of society. It is *A Brief History of Economic Thought*, but it will certainly go a long way in helping undergraduate students and other researchers who are curious about the evolution of economic ideas over the last five centuries.

### Food Education and Gastronomic Tradition in Japan and France: Ethical and Sociological Theories

Ueda, Haruka

*Routledge Food Studies* (Routledge)

2022 : 11 192 p. Hardback 9781032377858 £120.00

Food education has gained increasing scientific and political importance in many countries as a promising way to change contemporary eating. However, many practices fail to address two epistemological obstacles regarding its very components - 'food' and 'education'. Food has largely been thought of from a nutritionistic viewpoint alone and the ethical issues over children's freedom of choice and well-being have been largely absent. This book resolves these problems by applying ethical and sociological theories of food and analysing food education in two pioneering countries: Japan and France. The book focuses on taste education and gastronomy, as two key concepts which have great potential to positively impact food education.

Using the United Nations Framework of Analysis for Atrocity Crimes: A Tool for Prevention, the book presents seven case studies that identify relevant risks factors confronting selected countries and the extent to which the global pandemic has magnified and/or exacerbated such risks for affected populations.

These "ugly freedoms" legitimate the right to exploit and subjugate others. At the same time, Anker locates an unexpected second type of ugly freedom in practices and situations often dismissed as demeaning, offensive, gross, and ineffectual but that provide sources of emancipatory potential.

Turner, Oliver et al. (ed.)

(Routledge)

2022 : 12 560 p. Hardback 9780367863142 £190.00

This handbook provides a comprehensive survey of US foreign policy throughout the Indo-Pacific. Home to around 60 percent of the world's population; most of the world's largest and fastest-growing economies; around half of the world's states with full nuclear capabilities; and a complicated web of unresolved tensions, disputes, and conflicts, the Indo-Pacific is arguably the most diverse, dynamic, and contested region on Earth. US strategy there has evolved over centuries, with its physical presence going broadly unchallenged since at least the middle of the last century. However, the rapid development and expanding influence of China - alongside the growth of India, Indonesia, Vietnam, and the Philippines, and others - as well as political and economic crises and disruptions in the United States itself, mean that in recent times the US has come to occupy a newly uncertain position and perceive a range of highly unfamiliar challenges.

The revolution in financial technology (FinTech) has created many advancements in the lending and investment space across the world. *Law and Practice of Crowdfunding and Peer-to-Peer Lending in Australia, China, and Japan* is a timely publication as FinTech grows up and moved into the mainstream of finance in the last decade. Financial services is a highly regulated industry as it is the lifeblood of a modern economy. Pelma Rajapakse, Hatsu Morita, and Yinxu Huang have done very solid work blazing a new trail in what is a new industry and how to regulate it properly instead of stifling innovation. They have carried out a deep exploration and a thorough compilation of research that will bring everyone up to date on what Australia, China, and Japan are planning and doing in the field of crowdfunding and peer-to-peer lending.

Benedict, Timothy O.

*New Interventions in Japanese Studies, 4* (U. of California Pr.)

2022 : 12 206 p. Paperback 9780520388666 US\$34.95

What role does religion play at the end of life in Japan? *Spiritual Ends* draws on ethnographic fieldwork and interviews with hospice patients, chaplains, and medical workers to provide an intimate portrayal of how spiritual care is provided to the dying in Japan. Timothy O. Benedict uses both local and cross-cultural perspectives to show how hospice caregivers in Japan are appropriating and reinterpreting global ideas about spirituality and the practice of spiritual care. Benedict relates these findings to a longer story of how Japanese religious groups have pursued vocational roles in medical institutions as a means to demonstrate a so-called “healthy” role in society.
